

Tips for New College Partners

General:

- Organize and execute joint TC planning meetings (face to face or conference call).
- Have an initial dinner meeting for instructors.
- Maintain a good line of communication.
- Ask the Teacher Cadet instructors what you can do to help them.
- Keep a log of activities throughout the year for your End-of-Year Activities Report.

Instructional:

- Encourage creative technology use.
- Provide video resources, as appropriate.
- Co-teach a lesson.

Partnership:

- Use Teaching Fellows and MiSTERS as ambassadors to the Teacher Cadet classes.
- Have an “anchor” service learning partnership/activity (Ex. ACF-Book Distribution with the Rolling Readers Program).
- Have educational organizations and stakeholders **assist** with planning College Day for the Cadets. Allow them to help plan and implement activities throughout the day.
- Showcase majors at TC College Day; utilize activity “centers.”
- Have a TC conference where Cadets do presentations as they would at a professional educators’ conference.
- Promote and attend the End-of-Year Teacher Cadet Celebration held by the district with all of their TC sites or by individual sites.

Greater Collegiate Community:

- Share TC standards with COE professors and create a Speaker’s Bureau to address topics and serve as guest speakers.
- Work with the registration office to get deadlines established for TC registration information.
